

**Proposed Medical Facility (SEMK)**

Residents will be aware that it is planned to build about 3,000 houses between Woburn Sands and Bow Brickhill (SEMK); outline application have been submitted by the two principal developers and will be considered by MKCC over the next few months. The plans provide for an additional medical facility and MKCC have required the developers to provide this facility before the housing is built. We now have the opportunity to comment on what services should be provided in the new medical facility and your views are being sought.

It would be helpful if you could rank the following range of possible services in order of priority as far as you are concerned. It is assumed that the facility will include GP and nurse consultation rooms, and reception and waiting areas. The nursing rooms would be used by specialist nurses available on a timetabled basis plus health visitors, district nurses, midwives etc.

Other possible services are listed below.

**PRIORITY (1,2,3 etc)**

Dedicated Rooms

Screening Services

Outreach Clinics (eg cardiac, fracture, eye, dermatology, respiratory, cancer, child immunisation etc)

Counselling Services (eg geriatric care, mental health, social prescribing, homeopathy, aromatherapy)

X-ray/Radiography

Minor Surgery

Physiotherapy, Frailty Support, and Rehab facilities

Dedicated rooms including yoga/pilates

Basic gym facilities

Pharmacy

It would be helpful if you could indicate your age range

Under 30

31-60

Over 60

Please add any other comments

Please hand completed form into Asplands Reception, the WS Library or the WS Town Clerk (Memorial Hall)

Thank you
